Fun Platformer, lots of levels and gets harder and harder with time.. Loveless Mario clone. Some assets were not properly prepared and have a border around the images, some sounds are clipping, some game over messages suggest ad videos were intended. Stay away.. Pretty darn fun brings me way back to the real mario games!! only problem i seen is you bounce off everything so when you jump a gap and something is to close on other side you run into it and it bounces you back makes you fall in gap.. is good game. Buggy play store game, not kidding when I say repeats the same level 4 times, has no variety and is boring.. Fun Platformer, lots of levels and gets harder and harder with time.
